

Going out on the water?

#RespectTheDestination

Plan Ahead

Check national and local guidelines to ensure you and your crew are aware of safe travel guidance, this may include Covid-19 testing measures, or affect passage planning and overnight stays. Your destination may require pre-booking for berthing or mooring. Services may be limited such as fuel supply, water, showers, or stepping-ashore may be restricted.

Arrive Safely

Landing or launching places may have some form of hygiene regime. Consider wearing gloves or apply additional cleaning measures when handling mooring or berthing equipment. Vessels anchoring or mooring should follow local access guidance.

Think Local

Consider wearing a facemask, adhere to physical distancing guidance and respect local restrictions – even if you have been vaccinated. Be considerate to local track and trace procedures – it's for all our good. Buy local. Support local businesses whenever possible.
